## Student Feedback Questionnaire

### Instructor - Section Report

FALL 2021-22

Survey period: 16 November 2021 - 30 November 2021

CHUNG, Kai Lun Peter

#### **COMP-1021-LA1 Introduction to Computer Science**

115 student(s) have evaluated the course.

121 student(s) have not evaluated the course.

Percentage of enrolled students responding: 48.7% (115/236)

Adjusted percentage  $\hat{\wedge}$  of enrolled students responding: 47.0% (111/236)

#### About the TA

##### Q1. Please rate the TA overall:

		Weight	Count	Percentage	
A	Very Good	100.0	19	16.5%	
B		75.0	12	10.4%	
C		50.0	7	6.1%	
D		25.0	1	0.9%	
E	Very Bad	0.0	0	0.0%	
NA	Not Applicable		22	19.1%	
	Unanswered		54	47.0%	
	Total		115	100.0%	

	Regular		Adjusted $\hat{\wedge}$	
Statistics	Mean	SD	Mean	SD
Survey	81.41	21.24	82.43	19.42
Section	82.83	20.35	-	-
Course	85.06	19.05	-	-

##### Q2. What was good about the TA?

1. Able to provide detail information
2. Answer my questions quickly
3. Every lab has his patient teaching and whenever we have problems, TA will quickly answer them for us.
4. He can answer students' questions well.
5. He's very willing to answer questions posted on canvas, and makes timely responses.
6. Kind and supportive, always help clarifying the things that professor mentions.
7. The TA can always help me to solve the problems I met in time and he is patient and kind!
8. Willing to answer questions for zoom students
9. answer question quickly and clearly

##### Q3. How might the TA improve?

1. N/A (3)
2. NA
3. No
4. The instructions for lab marking can be more clear
5. none

Note: Please note that the aggregate statistics for department, school and university will be subjected to an updating and finalized on 27 January 2022

<sup>^</sup> Explanatory notes on adjusted percentage, mean and SD (collectively referred to as "adjusted statistics" below):

1. Adjusted statistics are calculated to provide a reference with extreme responses being excluded.
2. If a survey recorded 3 or more responses, the top 1.5% AND bottom 1.5% responses will be discarded. The number of discarded response(s) of each end is rounded UP to the nearest integer. The resultant data set will then be used to calculate adjusted statistics in this report.
3. Adjusted statistics will be provided up to course level if and only if they meet the following conditions:

Level of adjusted statistics	Conditions
Survey level	The survey receives 3 or more responses.
Section level	(1) All surveys receive 3 or more responses; AND (2) This section is taught by One instructor, teaching support staff, or teaching assistant.
Course level	(1) All surveys receive 3 or more responses; AND (2) This course is taught by One instructor, teaching support staff, or teaching assistant.

If no adjusted statistics is provided, it will be marked as "-" in this report.
