

The Hong Kong University of Science and Technology

Student Feedback Questionnaire

Instructor - Section Report

FALL 2021-22

Survey period: 16 November 2021 - 30 November 2021

CHUNG, Kai Lun Peter

COMP-1021-LA2 Introduction to Computer Science

102 student(s) have evaluated the course.

135 student(s) have not evaluated the course.

Percentage of enrolled students responding: 43.0% (102/237)

Adjusted percentage ^ of enrolled students responding: 41.4% (98/237)

About the TA

Q1. Please rate the TA overall:

		Weight	Count	Percentage	
A	Very Good	100.0	25	24.5%	██████
B		75.0	12	11.8%	██
C		50.0	1	1.0%	
D		25.0	0	0.0%	
E	Very Bad	0.0	0	0.0%	
NA	Not Applicable		19	18.6%	████
	Unanswered		45	44.1%	██████████
	Total		102	100.0%	

	Regular		Adjusted ^	
Statistics	Mean	SD	Mean	SD
Survey	90.79	13.53	91.67	11.95
Section	88.02	15.53	-	-
Course	85.06	19.05	-	-

Q2. What was good about the TA?

1. Answer my question clearly
2. Any questions can be answered at any time.
3. He is very patient
4. Replies emails almost instantly
5. Responds to students questions promptly
6. The TA was present at every L06 meeting, and clearly and helpfully answered any questions in the chat box.
7. Willing to response to questions asked from students on class and in the discussion forum.
8. careful
9. he could answer every question
10. nice

Q3. How might the TA improve?

1. I believe the TA is already doing well in clearing confusion in the classes, and it was enough that I was able to do the lab assignments on my own.
2. I have asked several questions over the semester but all I was only told to refer to the marking scheme. Understandably it is because of fairness but it is still quite frustrating at times.
3. N/A
4. No need to improve!
5. no

Note: Please note that the aggregate statistics for department, school and university will be subjected to an updating and

finalized on 27 January 2022

^ Explanatory notes on adjusted percentage, mean and SD (collectively referred to as "adjusted statistics" below):

1. Adjusted statistics are calculated to provide a reference with extreme responses being excluded.
2. If a survey recorded 3 or more responses, the top 1.5% AND bottom 1.5% responses will be discarded. The number of discarded response(s) of each end is rounded UP to the nearest integer. The resultant data set will then be used to calculate adjusted statistics in this report.
3. Adjusted statistics will be provided up to course level if and only if they meet the following conditions:

Level of adjusted statistics	Conditions
Survey level	The survey receives 3 or more responses.
Section level	(1) All surveys receive 3 or more responses; AND (2) This section is taught by One instructor, teaching support staff, or teaching assistant.
Course level	(1) All surveys receive 3 or more responses; AND (2) This course is taught by One instructor, teaching support staff, or teaching assistant.

If no adjusted statistics is provided, it will be marked as "-" in this report.
