

The Hong Kong University of Science and Technology

Student Feedback Questionnaire

Instructor - Section Report

FALL 2021-22

Survey period: 16 November 2021 - 30 November 2021

CHUNG, Kai Lun Peter

COMP-1021-LA5 Introduction to Computer Science

112 student(s) have evaluated the course.

122 student(s) have not evaluated the course.

Percentage of enrolled students responding: 47.9% (112/234)

Adjusted percentage $\hat{}$ of enrolled students responding: 46.2% (108/234)

About the TA

Q1. Please rate the TA overall:

		Weight	Count	Percentage	
A	Very Good	100.0	23	20.5%	
B		75.0	15	13.4%	
C		50.0	3	2.7%	
D		25.0	0	0.0%	
E	Very Bad	0.0	0	0.0%	
NA	Not Applicable		16	14.3%	
	Unanswered		55	49.1%	
	Total		112	100.0%	

	Regular		Adjusted $\hat{}$	
Statistics	Mean	SD	Mean	SD
Survey	87.20	15.93	87.82	15.03
Section	89.81	15.50	-	-
Course	85.06	19.05	-	-

Q2. What was good about the TA?

1. /
2. He can answer our question quickly
3. He gives immediate feedback to students' questions.
4. He is really helpful during the lecture and often answer questions in Zoom chat.
5. He replied to the messages during the zoom call immediately
6. He was always readily available to answer questions
7. NA
8. When people ask questions on zoom, he states out the question that he is answering clearly and the answers can really help us. Also, when we ask question about the hand-in lab, he tries to answer all question in the discussion of canvas.
9. willing to explain to us

Q3. How might the TA improve?

1. /
2. He can maybe provide a more clear explanation as sometimes he will just send links that will answer the questions
3. NA (2)
4. Nothing.
5. none

Note: Please note that the aggregate statistics for department, school and university will be subjected to an updating and finalized on 27 January 2022

[^] Explanatory notes on adjusted percentage, mean and SD (collectively referred to as "adjusted statistics" below):

1. Adjusted statistics are calculated to provide a reference with extreme responses being excluded.
2. If a survey recorded 3 or more responses, the top 1.5% AND bottom 1.5% responses will be discarded. The number of discarded response(s) of each end is rounded UP to the nearest integer. The resultant data set will then be used to calculate adjusted statistics in this report.
3. Adjusted statistics will be provided up to course level if and only if they meet the following conditions:

Level of adjusted statistics	Conditions
Survey level	The survey receives 3 or more responses.
Section level	(1) All surveys receive 3 or more responses; AND (2) This section is taught by One instructor, teaching support staff, or teaching assistant.
Course level	(1) All surveys receive 3 or more responses; AND (2) This course is taught by One instructor, teaching support staff, or teaching assistant.

If no adjusted statistics is provided, it will be marked as "-" in this report.
