Q12. What was good about the TA?

1. Peter's tutorials were much better prepared than the other TAs'. The other TAs' were useless.
2. This TA is kind, friendly. However, with poor technical background. For one TA as grader in higher level course, they should not have no understanding of how student implement things.

Q13. How might the TA improve?

Note: Please note that the aggregate statistics for department, school and university will be subjected to an updating and finalized on 27 January 2016
