Q5. Please provide any further comments about the Teaching Assistant Mr CHUNG, Peter below.

1. great ta

2. Peter is very good. I remember when he teach us the process scheduling algorithm. He teach us extremely useful skills on how to draw the graph against different scheduling algorithm which make me very confident at that topic. Also, during the lab, Peter will taking past paper as example to teach us, remind us what common mistaked the student made.
3. good TA, understanding how to explain and help students

Explanatory note on the number of students invited:

Starting from AY2025-26 Fall, the enrollment numbers in SFQ reports will be captured from SIS on the day before survey invitation emails are sent. All students enrolled in the course section at that time will be invited to complete the SFQ survey unless an exclusion request has been approved before the survey start date.
